

CF PROJECT PROPOSAL:

H&H PLAYS

The proposal for this HTML based webpage aims to connect like minded PC Gaming enthusiasts of Pakistan, mainly to smooth out PC Gaming for Pakistani gamers and mainstream it for the masses.

Tools Used:

Microsoft Visual Studio Code

OVERVIEW

In response to the burgeoning community of PC gaming enthusiasts in Pakistan, this proposal outlines the development of an HTML-based webpage designed to foster connections among like-minded individuals. The primary objective is to enhance the PC gaming experience for Pakistani enthusiasts, streamlining accessibility, and promoting widespread adoption within the gaming community. This initiative aims to establish a dedicated platform that not only connects individuals but also serves as a catalyst for the mainstream integration of PC gaming among the masses in Pakistan.

The Objective

To connect gaming enthusiasts of Pakistan on a single platform.

The Opportunity

Since no such social media platform is dedicated to connecting like-minded gaming enthusiasts, a void was there to be filled.

The Solution

An HTML 5 based custom platform to bring together the PC gamers of Pakistan that can aspire, learn, and share their passion for games and hardware.

OUR PROPOSAL

A website designed mainly for PC gaming enthusiasts which will comprise firstly a forums section where people can interact with each other, secondly a blog section where expert enthusiasts can write about the latest developments in technology, thirdly a classified section where people can buy and sell their PC and other accessories.

EXPECTED RESULTS

We expect our proposed solution to provide the following results:

- Social connectivity of likeminded enthusiasts
- Information and updates of tech industry
- Awareness
- Building a community

CONCLUSION

H&H Plays presents a comprehensive plan to address the needs of PC gaming enthusiasts in Pakistan and contribute to the growth and mainstream integration of PC gaming in the country. Furthermore, the awareness regarding latest trends and news in technology will be ensured. We look forward to seeing a growing wave of like-minded people on this platform. This platform is also expected to be maintained/moderated by team of dedicated individuals who are passionate about gaming and technology. The moderation team will play a crucial role in ensuring an inclusive environment for all users, encouraging healthy discussions and interactions within the community.
